

# Health and Safety Performance

## Recommendation

That the report is received.

## Executive summary

The report covers trends in key health and safety referencing key indicators across Auckland Transport, for the 12 months ending 31 January 2019. The trends for all indicators are generally stable or improving. Reported injuries to customers and the general public due to AT activities is continuing to trend down, while there is no change in the total recordable injury frequency rate (TRIFR) for AT employees.
