

Construction Update

Mission Bay | Safety Improvements

On behalf of everyone at Auckland Transport we hope this newsletter finds you and your whānau well.

Here's a quick update from the project team about the work that is happening in and around Mission Bay.

The construction of the Mission Bay Safety improvement project started on 26 April 2022 after our consultation and significant community input. We acknowledge everyone who shared their views with AT including representatives from the Business Association, Resident's Association and the Ōrākei Local Board.

We would like to thank you for your patience while this important safety work is carried out. To minimise disruption, the works will be carried out in stages. Construction phases location and timeline can be found below.

For regular updates, please visit our website: [AT.govt.nz/missionbaysafety](https://at.govt.nz/missionbaysafety) or scan the QR code.

Construction Phase Map

Safety Improvements

Timeline 2022*

Construction Phases	Apr	May	Jun	Jul	Aug	Sep	Oct
A Footpath renewal and cycleway preliminary work							
B Shared path construction							
C Footpath renewal and cycleway preliminary work							
D Road resurfacing (nightshift)							
E Carpark construction							
F Intersection upgrade							
G Speed tables installation (nightshift)							
H Cycle separators installation							
I Linemarking and surfacing (nightshift)							

*Subject to weather condition and please refer to the works notification letter for more details.

What we are doing

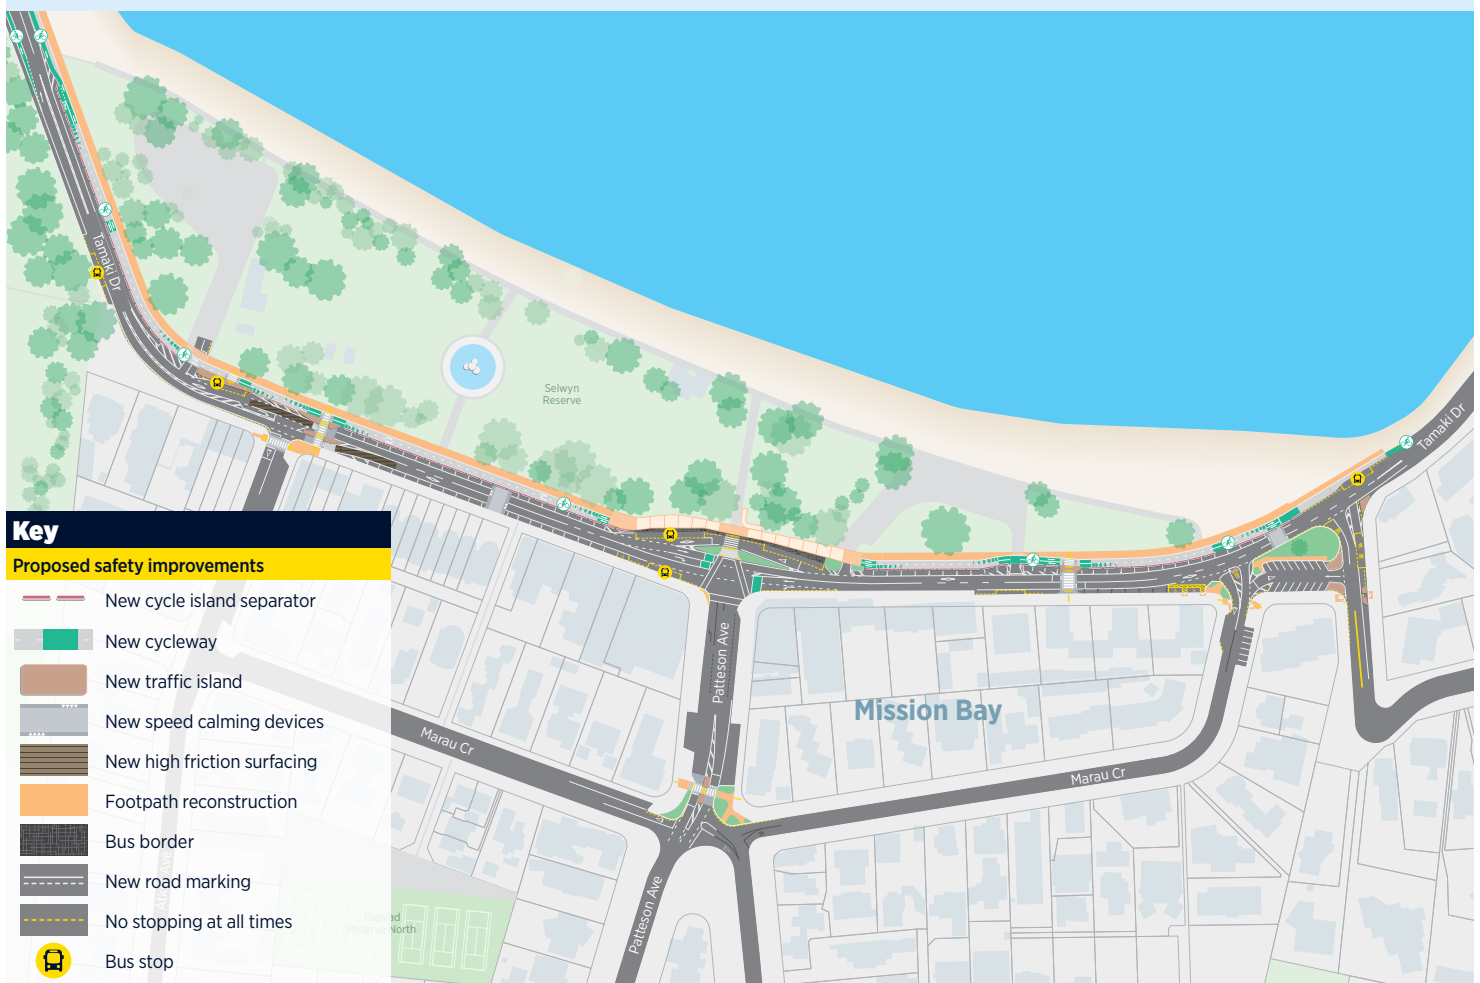

As a Vision Zero organization, AT is committed to making the roads around Auckland safer and reducing death and serious injury on our roads. Mission Bay is prioritised under its town centre safe speeds programme due to high numbers of vulnerable users – children, senior citizens, people walking and people on bikes or motorcycles interacting with motorists.

These improvements will slow down traffic to create an environment that is safer for everyone.

Our improvements include:

- A separated on-road cycleway along Tāmaki Drive
- Wider and improved shared space around the clock tower area (Tāmaki Drive / Patteson Avenue intersection)
- Two new raised speed tables along Tāmaki Drive
- Two new raised table zebra crossings along Tāmaki Drive
- One new raised table zebra crossing on Atkin Avenue
- One new raised table zebra crossing on Patteson Avenue
- Intersection upgrade on Patteson Avenue/Marau Crescent intersection
- New improved layout and pavements around high-conflict areas (example driveways to parking area)
- New bus shelters
- New bike parking facilities
- No net loss of car parking
- A new improved car parking area on Selwyn Avenue and Marau Crescent

Check out our improvement plan below to show location of the proposed safety improvements.

What we've been up to

Tāmaki Drive (Selwyn Ave to Clock Tower) footpath renewal and cycleway preliminary work

With the lovely autumn weather, we are progressing well on Phase A. The old footpath has been removed, and we have upgraded the drainage and installed a new kerb line.

The new asphalt footpath will be laid by the end of May. Once completed signage will be installed. We expect to complete this phase in early June.

Then we will move on to Phase C – Tāmaki Drive (footbridge to the bus stop) to start the footpath and cycleway preliminary work and to Phase E to begin the carpark construction.

Work has also started at the Atkin Avenue and Tāmaki Drive intersection to make it safer for pedestrians. We have removed the traffic island, and we are realigning the crossings and creating raised pedestrian tables on both Atkin Avenue and Tāmaki Drive. The streetlights are also being upgraded.

Most work will be completed during the day (between 7am – 7pm). However, please keep in mind that there are some night works required for resurfacing, line marking and speed tables later in the project, which will take place between 7pm – 5am. We will confirm those dates closer to the time.

Construction of Phase A work in progress

Next up (weather dependent)

In June, we will be completing Phase A, continuing the preliminary works on the Atkin Avenue/Tāmaki Drive intersection, and starting Phase C and Phase E.

In each monthly newsletter we will provide a more detailed information for each phase and what is happening.

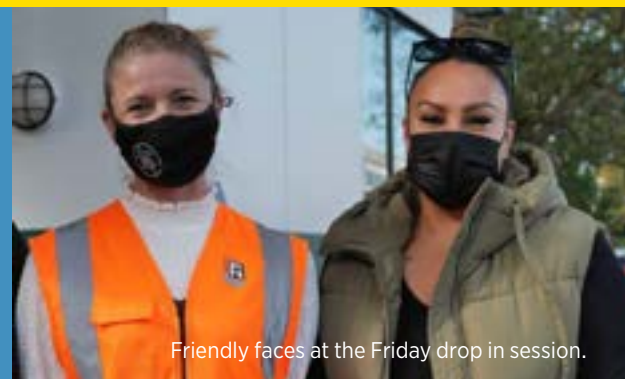

For your safety

Traffic management is in place to keep the public and our crew safe while we carry out this work. Please make sure children and dogs in your care do not enter any fenced areas and that you are aware of the trucks and other machinery working in the area.

Pedestrians and cyclists are being diverted through the park and along the waterfront path. Please follow our detour route and stay safe.

Get in touch

If you want to get up to date information about the project, come and chat to us at our Friday drop-in session located outside Movenpick. Auckland Transport and Fulton Hogan project staff will be there from 1pm to 2 pm, to answer your questions and queries. Check out our video link [here](#).

Friendly faces at the Friday drop in session.

For questions about construction activities (machinery, traffic management etc.) contact Fulton Hogan Stakeholder Manager, Linda Casey on **0800 348 007** or email Linda.Casey@fultonhogan.com
For project related questions, please contact AT on **09 355 3553** or email projects@AT.govt.nz
