

# Construction Update

## Devonport Town Centre

### We're finished!

#### Auckland Transport construction crews wrapped up work on the Devonport Town Centre safety improvements in April.

The improvements, which include new raised pedestrian crossings, an upgraded bus stop, and a brand-new cycleway along Victoria Road, will help make Devonport's beloved town centre a safer place to shop, dine, and enjoy however you travel.

We would like to thank everyone who partnered and engaged with us throughout the project timeline, from conception to delivery, including representatives from the community, Devonport Business Association, Bike Auckland, Devonport-Takapuna Local Board and Ward Councillors. We thank the planning and construction crews for their hard work and dedication in delivering these safety improvements as quickly and smoothly as possible. Most importantly, we thank the community of Devonport for your patience as we worked to carry out this important safety work.

**From all of us at Auckland Transport, Fulton Hogan, and our partners, be safe and enjoy!**
